Forecast for Friday 27 May 2022

Weather: Occasional showers early morning perhaps heavy at times. Gradually showers turning lighter and less frequent from late morning, with bright and sunny spells building through the afternoon. Mainly dry for the evening with good late sunshine, then clear spells.

Chance of cloud-free hill tops above 800m: 80-90% at first for any given time, but little chance for prolonged periods due to the showery nature of the flow. Gradually improving through the day as the showers dwindle.

Low Cloud and visibility: Good or very good, becoming moderate or poor in showers, also within cloud as bases sporadically lower 500-700m as showers push through.

Met Office Aberdeen Meteorologist's View
Difficult conditions early in the day with summit gales and quite frequent showers, wintry across higher peaks.

Forecast for Saturday 28 May 2022
Weather: Good sunny spells and mainly dry, however a few well scattered and light showers will cross in the northerly breezes.

Maximum wind: Northwest or north 15-20mph with gusts reaching 30mph over most exposed ridges and summits.

Chance of cloud-free hill tops above 800m: 90% plus

Low Cloud and visibility: Good or very good, briefly moderate in showers and very poor within associated cloud as bases infrequently lower 600-800m.

Temperature: **Glens:** Plus 3 Celsius increasing 13 Celsius for the afternoon
At 800m: Plus 2 Celsius increasing 4 Celsius for a time
Freezing level: 1200m increasing 1500m for a time
